1 . * =====
2 . * STATISTICAL RESULTS APPEARING IN CHAPTER 2, THE REVOLUTIONARY CITY
3 . * Results reported in Chapter 2
4 . * Author: Mark R. Beissinger
5 . * Date: January 2022
6 . * Princeton, NJ
7 . * =====
8 . * BEFORE RUNNING, YOU MUST SET THE DEFAULT PATH FOR WHERE THE DATA
9 . * FILES RESIDE
10 . * =====
11 . * The following datafiles were used in this chapter:
12 . * Monitoring surveys (Ukraine)--monitoring20052014engmerged.dta
13 . * 2011 Arab Barometer--Tunisia and Egypt--fullarabbarom2.dta
14 . * States and episodes--statesandepisodes.dta
15 . * Risk of revolutionary episodes--revspellsbase.dta
16 . * Panel data for revolutionary episodes--revspredictbycntryyr.dta
17 . * Data set of revolutionary episodes--revolutionaryeps.dta
18 . * Data set of demonstrations in USSR during glasnost'--glasnostdemonstrations.dta
19 . * World Survey Wave 6 (recoded by author for analysis)--worldvalues.wave6.2010-14.dta
20 . * =====
21 . * Before running, you must ensure that the following STATA package is installed:
22 . * arpois from http://www.stata.com/stb/stb46
23 . * =====
24 . * Output produced: Logfiles\chapter2.log
25 . *                               Logfiles\figure2 4.pdf
26 . * =====
27 . *
28 . * =====
29 . * OVERALL TEMPORAL PATTERNS OF REVOLUTIONARY EPISODES
30 . * =====
